EDUCATION

Computer Programming College Diploma   Sep. 2021 – Aug 2023
Algonquin College of Applied Arts and Technology   *Ottawa, ON*

Associate Degree in Computer Technical Support   May. 2016 – Aug 2018
Riyadh College Of Technology   *Riyadh, Saudi Arabia*

EXPERIENCE

Software Developer   Jan 2023 – May 2023
Warner Bros. Discovery   *Kanata, ON*
- Developed and maintained features of the Video Player component of a multimedia app, using C++.
- Wrote comprehensive unit tests, covering approximately 70% of the codebase, ensuring code quality.
- Assisted in identifying and resolving bugs by reviewing code and performing manual testing, earning recognition from the team leader for exceptional attention to details.
- Collaborated with a development team in an Agile environment, using Git, GitHub, and Jira. Effectively communicated progress, challenges, and solutions within the team to ensure streamlined project delivery.

Software Developer   Sep. 2022 – Dec. 2022
Canadian Food Inspection Agency (CFIA)   *Ottawa, ON*
- Developed a web-based system using ASP.NET, and C#.
- Demonstrated attention to detail and results-oriented mindset to deliver accurate and high-quality solutions.
- Identified and resolved bugs within supported applications, employing troubleshooting skills to maintain quality.
- Independently acquired new technology skills through training, mentorship, and self-study, expanding proficiency in Python, C#, Javascript, and .NET Core.

IT Support Specialist   Sep. 2020 – Jan 2021
Al-Rabee and Al-Saif Co   *Riyadh, Saudi Arabia*
- Provided comprehensive technical support to more then 50 employees, resolving an average of 10 calls per day.
- Produced precise Technical Documentation for troubleshooting sessions, and addressing issues.
- Leveraged remote desktop tools to efficiently assist clients in remote workspaces, ensuring minimal downtime and maximizing productivity.
- Skills gained: Problem Solving, Technical Communication, Documentation, Adaptability

PROJECTS

Tax filing and Bookkeeping Business Website | *C#, dot NET, SQL Server*   June 2023 – Present
- Developing a full-stack web application for efficiently managing clients and their documents.
- Implemented user account registeration and login functionality using dot NET Identity API.
- Integrated features for uploading and downloading documents, ensuring seamless document management.
- Collaborating within an Agile team, utilizing industry-standard tools such as Git, GitHub, ZenHub, and MS Teams for streamlined project management and effective collaboration.

Recipes App | *Android, Java, SQLite*   June 2022 – Aug. 2022
- Developed an Android app for searching meals recipes based on cuisines, using the MealDB API.
- Implemented functionalities including search, detailed recipe view, and favorites list.
- Utilized Java and SQLite for app development.

Games Tracker Web Application | *PHP, MySQL*   Apr. 2022 – May 2022
- Developed a web application, encompassing multiple web pages for performing CRUD operations.
- Utilized skills in HTML, JavaScript, PHP, MySQL, and CSS to design and implement the project.
