SUMMARY

Results-driven Software Developer with 2+ years in .NET application development and 1.5 years in technical support. Expertise in C#, .NET, SQL, and Oracle with strong cross-functional collaboration skills. Recognized for problem-solving abilities, coding best practices, and delivering solutions that enhance user experience and operational efficiency.

TECHNICAL SKILLS

Languages: C#, PL/SQL, Java, Python, JavaScript, HTML, CSS, C++.
Frameworks: .NET Core/Framework, ASP.NET, Framework, Razor Pages, Windows Forms, RESTful APIs
Developer Tools: Version Control (Git), Azure DevOps, Visual Studio, Oracle SQL Developer, Android Studio, Eclipse.
Databases: Oracle, SQL Server, MySQL.
Other Skills: Object-Oriented Design, Design Patterns, Agile Methodology, Problem Solving.

EXPERIENCE

Software Developer
Sep 2023 – Apr 2025
Canadian Food Inspection Agency (CFIA)
Ottawa, ON

- **Contributed** to a mission-critical backend system built with C#/.NET that processes 40,000+ XML import declarations daily, ensuring reliability, scalability, and compliance with Canadian trade regulations.
- **Contributed** to both front-end and backend development, leveraging C#, ASP.NET, JavaScript, and Oracle PL/SQL to build features and resolve critical defects.
- **Improved application performance** by optimizing PL/SQL queries and refining data handling logic.
- **Automated regression testing** using Python and Robot Framework, ensuring system quality.
- **Collaborated in an Agile** environment, participating in sprint planning, code reviews, and backlog grooming.
- **Leveraged Azure DevOps** CI/CD pipelines for code integration, deployments, and release management.
- **Gained exposure** to cloud technologies (Azure) to support system stability and scalability.

Software Developer – Co-op
Jan 2023 – May 2023
Warner Bros. Discovery
Kanata, ON

- **Maintained and enhanced** cross-platform Video Player component for a streaming app on AndroidTV and FireTV .
- **Developed unit tests** covering 70% of the codebase, significantly improving code quality.
- **Identified and resolved** key defects by conducting thorough code reviews and manual testing, earning recognition from the team-lead.
- **Collaborated in an Agile team environment**, utilizing Git, GitHub, and Jira to ensure efficient project delivery.

Software Developer – Co-op
Sep 2022 – Dec 2022
Canadian Food Inspection Agency (CFIA)
Ottawa, ON

- **Migrated** a legacy Oracle Forms application into a modern web-based solution using ASP.NET, C#, JavaScript, HTML, JQUERY, and CSS, improving accessibility, performance and maintainability.
- **Assisted** in backend development tasks including API integration, bug fixes, and database operations, strengthening service reliability.
- **Proactively expanded technical expertise** in Python, C#, JavaScript, and .NET Core through self-study and mentorship, enhancing development capabilities.

Jr. Software Developer
Nov 2019 – Jul 2021
Astar Sanad Hospital
Riyadh, Saudi Arabia

- **Assisted in updating a WinForms**-based patient check-in system using C# by fixing bugs and improving form responsiveness, which helped reduce wait times at the reception.
- **Supported the development of internal web pages** using ASP.NET, HTML, and JavaScript to display appointment schedules and test results for staff across departments.
- **Helped write and maintain Oracle PL/SQL** scripts to support data entry validation and basic reporting tasks, improving accuracy in patient record management.
- **Worked closely with senior developers and end-users** to test new features, document issues, and deploy updates.

EDUCATION

Computer Programming College Diploma, with Honors
Sep 2021 – Aug 2023
Algonquin College of Applied Arts and Technology
Ottawa, ON

Computer Technical Support Associate Degree, with Honors
May 2016 – Aug 2018
Riyadh College Of Technology
Riyadh, Saudi Arabia
